**Subject:** Amendment #3 to Request for Quotation (RFQ) #HSBP-05-007 for  
"Program Management Support for Modernization Program"

**Reference:** Request for Quotation (RFQ) #HSBP-05-007 for "Program  
Management Support for Modernization Program"  
dated August 4, 2005 (through Amendment #2)

U.S. Customs and Border Protection (CBP) issued Request for Quotation (RFQ) #HSBP-05-007 for "Program Management Support for Modernization Program" on August 4, 2005. Amendments were issued on August 18, 2005 and October 17, 2005. The purpose of this letter is to issue the attached amendment #3 changes to RFQ #HSBP-05-007.

In July 2005, a re-organization of the U.S. Customs and Border Protection (CBP) Office of Information and Technology (OIT) occurred. As a result of the re-organization, the Modernization Program is dispersed throughout the new OIT organization. The government has determined that it is more economical and of greater benefit to the government to allow all of OIT, rather than just the Modernization Program, to place orders for program management support under RFQ #HSBP-05-007. CBP considers this to be an administrative change, as neither the type of work performed nor the scope of the work will change. Therefore, we will not allow offerors to submit new technical proposals or cost quotes in response to this amendment.

For purposes of information, the government may place multiple task orders shortly after completion of the RFQ process. These task orders may be of varying contract types. The value of the BPA will remain as stated. As indicated in the 8/18/05 Responses to Questions, "[the] use of Task Order #1 shown in the RFQ takes the form of a sample task for this RFQ" (Q. #9). The Department of Homeland Security is in the process of completing a solicitation process for EAGLE contracts. The impact that the EAGLE contracts may have on this BPA is not known at this time.
